Chairman	Hong *****	Phone	***-***-****

	Project Sponsor	Online Art Activities 'Art Change Up' 2022		
	Team Name	Water Dweller	Genre	Media Art
	Representative	Syemin Park	Phone	***-***-****
	Artwork Name	Plastic Sarira		
	Artwork Summary	Our artwork focuses on the changes caused by plastic on the environment and diverse organisms. Therefore, we use computer programming to create a 'plastisphere, an environment where various life forms have adapted to plastics, in order to show an ecosystem where microplastics and virtual organisms co-exist in symbiosis.		
	Consultation Date	21 July, 2022		
	Consultation Purpose	Consultation was requested to confirm the appropriateness of our research methodologies and seek advice on our plan on collecting waste plastics in several beaches nationwide.		
	Response Received & Conclusion	<ol style="list-style-type: none"> <li>1. Necessary to reconsider the feasibility of the research plan due to the lack of participants. (Two people may be insufficient for such a large scale plan)</li> <li>2. Suggested different transportation routes and methods.</li> <li>3. Recommended us to a civic group performing nationwide beach litter monitoring. We participated in the Siheung Environmental Movement Association's monitoring work on the Yeongheung Island in Incheon and experienced field investigations.</li> </ol>
